- 120 South Yukon-Northern BC
- 130 Alsek-Taku

These boundaries represent subdivisions of the Operational Boundaries for DFO Pacific Region before the implementation of the new Operational Boundary in December 1999. They are the same as those displayed on the map entitled Department of Fisheries and Oceans Pacific Region April 1992. Different versions of Sub-District mapping show different boundaries. For example:

- 21 includes coast streams within 22.
- 22 does not include streams draining into 23.
- 13 not split into 13E and 13W
- 28B does not include Lillooet watershed
